

THE YOLO DEMOCRAT. OFFICIAL PAPER.

Saturday, June 18th, 1870.

WEAT MARKET.—Price raised. New, \$1.50 to \$1.60; Old, \$1.40 to \$1.50 per 100 lbs.

ANOTHER VICTORY.—The Municipal election in Treasure City, White Pine, resulted in favor of the Democrats.

DEATH OF AN ACTOR.—The telegraph announces the death of William Gilmore, the novelist and poet, aged 64 years.

QUAKE IN JAPAN.—On the morning of May 13th the severest earthquake for many years was felt at Yokohama, Japan.

LABOR UNREST.—The bill subsidizing a line of steamships between the Pacific and Australia appropriate \$800,000 per annum.

INSTRUCTION REVERSED.—Judge Morrison, of the Fourth District Court, has refused an injunction in the Mercantile Library lottery case.

PRICE REDUCED.—The Fourth of July the price of the Sacramento Daily Union will be reduced from fifty to twenty-five cents per week.

COURT JUDGE APPOINTED.—Delos Lake, County Judge of San Francisco, having resigned, John A. Staley has been appointed by the Governor to fill the vacancy.

RAVEN DISMISSED.—Mr. Goodenough, Superintendent of the Methodist Printing Department of the Book Concern, has sued Dr. Lashan for slander, laying his damages at \$25,000.

A BUST UP IN THE CABINET.—Attorney General Howe has resigned, and Ackerman, of Georgia, has been nominated as his successor. It is rumored that Fish, and perhaps other members, will retire.

TEA.—The Great Republic which arrived on Wednesday brought 600 tons of tea. This, in addition to her 1,000 Chinese to displace an equal number of white men, and a number of women of bad repute.

DENTAL CONVENTION.—The Dental Association of San Francisco has issued a call for a State Convention, to be held in that city on the 29th of June. The organizing of a State Association is contemplated.

DEPORTED.—By a vote of 102 to 62, the House has tabled the Naturalization bill, after a debate upon the subject of naturalizing Chinese, in which not only Artell and Johnson, but Sargent and Fitch, opposed the project.

CLAIM REJECTED.—In the Senate, the Committee on Public Lands have made an adverse report on the bill granting a portion of the Yosemite Valley to Hutchings and Lanyon. This is considered equivalent to a rejection of the bill.

THE SALE OF TICKETS PROCEEDED.—Judge Morrison having refused to grant O'Connell's request for an injunction of the Mercantile Library Concert scheme, the managers commenced disposing of tickets again on Tuesday afternoon.

THOSE NEW YORK FRAUDS.—The New York World says the only outrages committed in that city at the recent election, was by the negroes themselves, upon the very few of their own color who attempted to vote the Democratic ticket.

REPUTATION.—The Republican papers have been industriously circulating the story that the Democratic platform in Oregon favored repudiation. It turns out to be merely a rook-back to gain votes, but which, significantly, the Oregon Democracy favor so much.

LOSS OF THE STEAMER "ACTIVE".—The Pacific Transportation Company's steamer Active was wrecked on the 5th instant off Cape Mendocino in a dense fog. The passengers, numbering 117, and the officers and crew were saved. The cargo was valued at \$100,000, which, with the vessel, is a total loss. No insurance.

YOLo CARNAL COMPANY.—The Solano Republican states that Jerome C. Davis is in Washington lobbying for a subsidy for the Yolo Irrigation Canal Company. He has recently published a pamphlet explaining to Congress the great necessity for a grant of land, and urging the immense usefulness of the proposed project.

PREPARING FOR FAREWELL.—The Solano Republican says a farmer living near Dixon has a cat which recently gave birth to six kittens, five of which are ligamented together, a la Siamese twins. They are growing finely, and is taking extra care of them, as he is satisfied Barnum will want them for Wood's Museum.

GRAT FIRE IN CONSTANTINOPLE.—A terrible conflagration occurred in Constantinople not long since. Several splendid houses were destroyed and thousands of people burned to death. Accurate state that some were hounded in and unable to escape; others shut themselves in their houses and perished with them. Many were killed by falling walls.

POLITICAL PROSCRIPTION.—This despicable state of things still has some defenders. We find an instance related in the Yolo Recorder, where the Sheriff of Solano county objected to a man acting as an auctioneer, at a bank sale because he was a Democrat. And the chief of the editorial of the Recorder is criticised for assisting the auctioneer in obtaining the loss.

LOSS OF A FRENCH TRANSPORT.—The Euryale, transport ship, belonging to the French navy, was lost on the 5th of March last on Starbuck Island, news of the disaster having just arrived in San Francisco. No lives were lost. A party put to sea in the long boat and fell in with a Swedish brig, after being eight days out, which proceeded to the island and took off the wrecked mariners.

WHOLESALE POISONING AT LOS ANGELES.—A few days ago a number of persons were poisoned at Los Angeles. The examination of the parties suspected of poisoning food at the Bella Union Hotel is progressing. Some 40 persons have been ill and some are dangerously so. There is much excitement in the city over the fact. The parties under examination are ex-employees at the hotel.

DEATH OF CHARLES DICKENS.—We are pained to have to announce the death of the greatest novelist the world has ever produced. Charles Dickens is dead. He died on the 9th instant in London, stricken by paralysis. Not a nation or a people only, but the whole world will mourn his departure, for it can be said of him with greater truth than of any other modern writer—he was known to all men.

DISPUTED ELECTION.—At the late election in San Francisco on the question of granting a subsidy of a million dollars to the Southern Pacific Railroad, the returns showed a majority of 134 against it. A recount has been demanded by the Railroad Company, which resulted in a reversal of 130 votes, and turning the scale by 63 votes in favor of granting the subsidy. There's big robbery somewhere.

ALL QUIET IN POLITICS.

As there are no elections of importance to take place very soon, politics are decidedly quiet just now. The Oregon election has created some stir the last few weeks, but that being over and the decision of the people being satisfactory, it ceases to maintain any further interest. We are glad this is so.

As the National Holiday approaches, let us lay aside politics as much as possible; let all good citizens mingle together on that day in commemoration of the glorious event which has made this country great, glorious, free, independent. There is no question to hinder or disturb this state of feeling; and while we believe that only through intelligent and honest political parties can a Republican Government be maintained, it is fortunate that sometimes there comes a lull in the strife—a calm on the political sea. This enables the citizen to look coolly into the condition of public affairs, to take a retrospect of the past, to determine whether our public officers—the servants of the people—execute faithfully the trusts confided to them; whether it is proper to continue the same party in power, or whether it would redound to the general good to effect a change—times can be pondered well at such times, free from the influence of extreme party feeling. And we take it to be the duty, nay, the high privilege, of every American citizen to examine for himself and see if all goes well. By and by there will be enough to engage our attention.

THE LABOR QUESTION constantly looms up, demanding consideration; the tariff is also to be a leading question in the immediate future, with Taxes, Revenues and the like; and, of course, from time to time new issues will arise to claim the attention. Our country is blessed with fair crops this season, the cereals are now being gathered by the farmers in good condition, and the prospect is that good prices will be realized; our town continues to improve by the addition of new and stately buildings; business, a little dull just now on account of the harvest season, is in the main passably good. Taking all these facts into consideration, we can well afford to make up our minds for a general rejoicing. Let there be a universal determination to glorify as the Fourth approaches, and all will be the better for it.

STARRED IN THE HOUSE OF THEIR FRIENDS. At the citizens' meeting held in Sacramento, a week ago, to make arrangements for celebrating on the Fourth, it was unanimously resolved to exclude the negroes from participating. Wherefore this cruelty, this disloyalty to our "colored brothers"? But are proceeding, surely, for a Republican city like Sacramento, to exclude a Radical consistency. The negro is good enough to vote, to take part in the management of public affairs, to hold office, to save the Republican party temporarily from utter annihilation, but he is not good enough to take part in a Fourth of July celebration with white men. This is consistency; this is love of the colored man; this is "loyalty." It is all very fine, but it is a howl of sympathy when occasion requires for "the poor negro" thousands of miles away, but those men who cry out the loudest over the imagined wrongs of Sambo, when an opportunity offers to show their good will toward him at home, resolve unanimously to have nothing to do with him. It seems to us that if the darkey is allowed to exercise "the highest privilege of an American citizen," he should also be allowed to take part in a Fourth of July celebration. Didn't he save the nation? And this is his reward. Poor Sambo.

THE "EXAMINER."—This stanch, first-class Democratic journal has entered upon its eleventh volume. While in some departments it may not be as enterprising as some of its contemporaries, in the ability of its editorial and literary, unflinching support of its party, the Examiner is head and shoulders above them all. We have seen its office destroyed by the Radical mob because it dared proclaim the right during the dark days of proscriptio on this coast; we have watched with pride and pleasure the persistent, fearless, successful establishment of that journal—not under the same name, but by the same managers and with the same brain—and now we are pleased to know that the Examiner is not only permanently re-established, so firmly that it may defy all radicalism, but is rapidly repaying the money expended upon it in years past. It has always fought a good fight for the Democracy, and deserves well of their hands.

PERSPECT OF GOOD FORTUNE.—The Chronicle copies from the Chicago Times of June 6th the following dispatch from New York, announcing a state of affairs in Europe which will cause a lively demand for breadstuffs in the California market. The Associated Press failed to enlighten the people of this coast as to the facts given below, for what reason we are not aware. Our farmers, if they fall short in bushels, will probably receive as many dollars in the aggregate as last year.

NEW YORK, June 5th. Private advices from Liverpool state that continental buyers yesterday cleared the breadstuffs market ahead of cable quotations. Hence the English buyers had to fall back on our market, and the result was that they swept it in less than ten minutes of two hundred thousand bushels of wheat, and were dissatisfied that they could not get a sufficient supply of flour for immediate shipping purposes. This day (Sunday) orders were received by cable from France for further purchases, and there exists now no doubt that serious troubles are apprehended on the continent. War in the east of Europe is among the immediate possibilities of the summer. Russia is again regarded as an aggressor by the Western Powers, and it is believed that France will this time join France in preventing the Czar from dealing a death blow to Turkey. It is evident that the Egyptian Viceroy's preparations for war against Turkey are openly encouraged and aided by Russia, and the Czar may have to be fought over again to keep the Czar out of Constantinople.

OVER THE PRINCIPAL CAUSES OF THE HARD TIMES.—The Sacramento Reporter says that according to Governor Geary, 1,500,000 workmen are now unemployed because of the depression in our shipping interests. Taking the smaller estimate as the correct one—assuming the value of the labor of these men (not their wages) to be \$2 per day—we have a daily loss to the country of \$3,000,000, or a yearly loss of the enormous sum of \$1,401,000,000. That these men are out of employment is chargeable solely to the tariff; and thus we have, as one of the items of the indirect taxation inflicted by the tariff, the sum of four hundred and few millions per year. Is it any wonder that times are hard in the United States?

FOR SALE.—W. R. Curtis advertises a header and two wagons for sale on easy terms.

What a Journalist Thinks of Woodland.

The Marysville Standard of June 13th contains the following complimentary notice of Woodland as seen by one of its editors, Mr. W. G. Morrison.

We had the pleasure on Saturday of visiting this enterprising and beautiful town. It is the county seat of Yolo, is pleasantly located on the California Pacific Railroad, and is surrounded by some of the finest land in the State, being valued at from \$50 to \$40 per acre, aside from improvements. The town is one of the largest places in California. It is situated only 31 miles from us, and is easily reached in one hour and ten minutes. The citizens claim for it a population of three thousand, although this estimate is doubtless too high. Many buildings are in process of erection, notably churches, a court house, a city hall, and a number of creditable and ornamental. Like many other points in California, it has three churches, Methodist, Catholic and Christian; two hotels; a fine brick bank, with a capital of \$300,000; a large and well-stocked drug store; and organizations of Odd Fellows, Masons and Good Templars flourish; two weekly papers and a number of business houses indicate that the population of a large number of the citizens claim for it a population of three thousand, although this estimate is doubtless too high. Many buildings are in process of erection, notably churches, a court house, a city hall, and a number of creditable and ornamental. THREE TO ONE.—The steamer record of arrivals by sea, for the first five months of the year, show three Asiatics to one American and European; and the departures present the same comparative facts; and the books for May give us over two Chinese to one American. The number of passengers being 4,000, including 3,920 from China and Japan, 608 from New York, 171 from Australia, 54 from Mexico, and 14 from British Columbia. These figures are suggestive. They show as plainly as twice two makes four, that the better educated population is increasing over the white race at fearful stride, and that but a few years will elapse before the Mongolian will outnumber the number of the white race. What, then, is the duty of all Americans? Do we not owe it to ourselves and white posterity to protect this fair land against such a calamity? We must make the Federal Government feel our real situation; and the sooner Congress is made to understand our situation the better. Chinese immigration must be stopped—brought to an abrupt close, either by unfriendly laws or by the action of our Government. We have been made to feel that we must be broken or annihilated; and if the Government will not protect us from the Mongolian, we must protect ourselves. We must make the Federal Government feel our real situation; and the sooner Congress is made to understand our situation the better. Chinese immigration must be stopped—brought to an abrupt close, either by unfriendly laws or by the action of our Government. # THE YOLO DEMOCRAT.

## Miscellaneous Items.

A MAX can't help what is done behind his back, as the scamp said when he was kicked out of doors.

BRICK POMEROY has consented to run as Democratic candidate for Congress in the Seventh District of New York, now represented by the Hon. John Morrissey.

RECORDED HALL, of Vallejo, last Saturday sentenced James Quinlan to pay a fine of \$300, or be confined in county jail 150 days for brutally whipping his wife. He is confined.

A REPUBLICAN Senator a few days since said: "If you don't look out the Democrats will take the Ten Commandments and the Sermon on the Mount for their platform, and while us to a jolly next year."

A QUEER wedding took place a few days ago in New York, where a father and a son married a mother and a daughter, the strange pair of old being that the father married the daughter, and the mother married the son.

DURING one week in Keokuk county, Iowa, a family named Perce buried the last of their three children, all of whom died of scarlet fever. As the father and mother were returning home from the grave of the last, just as they were entering their gate, the lightning struck their team, killing it and the husband. The wife is now a raving maniac.

THE Marysville Appeal, which paper has so often chronicled the demise of the Democratic party, in a recent issue candidly admits: "That the Democratic party cannot be broken up, ought to be well understood by this time, for a party that can live and flourish with all the oil of the war in its veins, and possess a vitality that requires something more than the efforts of a few old fogies."

A FELLOW en route to the penitentiary, remarked to his companions in affliction: "Now, boys, this thing you get of getting blue over this thing, you don't seem to appreciate the advantages you are to enjoy. For instance, you will be clothed, fed, lodged, and all the expenses of the penitentiary will be paid for you. On Sundays you can attend church without being called upon to help fill the contribution box."

SEVENTY-FOUR Chinamen from San Francisco, are now en route to Massachusetts, where they are to be employed in the manufacture of boots and shoes. They, of course, take the place of white laborers and their presence here has yet had no experience with the Chinese, and have repeatedly censured Californians for their opposition to Chinamen. Now they will have an opportunity of judging for themselves.

A MAN with four wives was brought before a Dutch Justice, for commitment on a charge of bigamy. "Four wives," exclaimed the astonished Haha, "four wives? that was a most atrocious crime! Discharge him at once." "Why?" protested the prosecutor, "why discharge him when the proof is positive?" "Court," replied the defendant, "I have four wives, and here I am with four wives, and I got too much punishment already."

A CERTAIN amount of opposition is a great help to a man. Kites rise against the wind, and not with the wind; even a head wind is better than none. No man ever worked his passage anywhere in a dead calm. Let no man wax pale, therefore, because of opposition; opposition is what he wants and must have, to be good for anything. Hardship is the nut which will not crack unless it is cracked by the nutcracker of adversity. He who cannot abide the storm without flinching, lies down by the wayside to be overlooked or forgotten.

THE Sacramento Bee says the Grand Lodge of Good Templars of the United States, in session at St. Louis, have selected Vallejo, California, as their next place of meeting. That is very proper and very complimentary. California begins to attract the stranger to her borders, and these annual gatherings of the public bodies give many people the opportunity to see the Golden State as it otherwise might never be among us. The roads bring them at reduced rates, and the time spent is a pleasing holiday.

THE New Albany Ledger says a ludicrous incident occurred at one of the city churches a few nights ago, which goes to prove the demoralization, from an orthodox standpoint, of the modern age. At a general meeting a gentleman rose to give his experience, and being somewhat embarrassed commenced by saying, "I feel—by this time the speaker's mouth went off and the audience resumed its equanimity."

BARNUM AND "FOSS."—On the return from the Geysers, "Foss," the noted stage driver, gave the showman a sample of fast driving. He had a fine team of six horses, and he made a section of five miles with 123 turns in the road in 23 minutes. Barnum holding out to the seat with one hand, and his hat in the other, was the very picture of terror. "Foss," he cried, "I say Foss!" but Foss was deaf as an adder, and answered only with a sharp crack of his long whip, and dashing around the curves his horses flew down the hills. Barnum saw a deep gully ahead, and he was crying out for help at all the horses dashing toward it at all speeds, crying out for help at all the horses dashing toward it at all speeds, crying out for help at all the horses dashing toward it at all speeds.

A NEGRO JUROR'S CONFESSION.—A correspondent of the Tallahassee Floridian, writing from an interior town, relates the following significant incident which transpired lately in the Circuit Court in that District: "A negro juror was selected by the acting State Attorney if he had taken an oath in any secret organization, when acting as juror, not to bring in a verdict against any one of his race or color where a white man was interested. He replied he had. The Judge immediately ordered his name to be stricken from the list of jurors."

## To the Nervous and Debilitated,

Whose sufferings have been protracted from hidden causes, and whose cases require prompt treatment to render existence desirable: If you are suffering or have suffered from involuntary discharges, what effect does it produce upon your general health? Do you feel weak, debilitated, easily tired? Does a little exertion produce palpitation of the heart? Do your liver, or urinary organs, or your kidneys, frequently get out of order? Is your urine sometimes thick, milky or frothy, or is itropy on settling? Or does a thick scum rise to the top? Or is there a sediment at the bottom after it has stood awhile? Do you have spells of short breathing or dyspnea? Are your bowels constipated? Do you have spells of fainting or rushing of blood to the head? Is your memory impaired? Is your mind constantly dwelling on this subject? Do you feel dull, listless, mooping, tired of company, of life? Do you wish to be left alone, to get away from everybody? Does any little thing make you start or jump? Is your sleep broken or restless? Is the lustre of your eye as brilliant, the bloom on your cheek as bright? Do you pursue your business with the same energy? Do you feel as much confidence in yourself? Are your spirits dull and flagging, given to fits of melancholy? If so, do not lay it to your liver or dyspepsia. Have you restless nights—your back weak, your knees weak, and but little appetite—and you attribute this to dyspepsia or liver complaint?

Now, reader, self-abuse, venereal diseases, and sexual excesses, are all capable of producing a weakness of the generative organs. The organs of generation, when in perfect health, make the man. Did you ever think that those bold, defiant, energetic, persevering successful business men are always those whose generative organs are perfect health? Such men never complain of being melancholy, of nervousness, of palpitation of the heart. They are never afraid they cannot succeed in business; they don't become sad and discouraged; they are always polite and pleasant in the company of ladies and look you and them right in the face—none of your downcast looks or any other meanness about them! I do not mean those who keep the organs inflamed by running to excess. These will not only ruin their constitutions, but also those they do business with or for.

How many men, from badly cured diseases, from the effects of self-abuse and excesses, have brought about that state of weakness in those organs that has reduced the general system so much as to induce almost every other disease—dyspepsia, indigestion, spinal affection, neuritis, and almost every other form of disease which humanity is heir to, and the real cause of the trouble scarcely ever suspected, and have doctored for all but the right one.

Diseases of these organs require the use of a Diuretic. HELMBOLD'S FLUID EXTRACT BUCHU is the great Diuretic, and is a certain cure for diseases of the Bladder and Kidneys, (travel, Dropsy, Organic Weakness, Female Complaints, General Debility, and all diseases of the Urinary Organs, whether existing in male or female, from whatever cause originating, and no matter of how long standing.

If no treatment is submitted to, Consumption or insanity may ensue. Our flesh and blood are supported from these sources, and the health and happiness, and that of posterity, depends upon the prompt use of a reliable remedy.

Helmbold's Extract Buchu, established upward of 19 years, prepared by H. T. HELMBOLD, Druggist, 64 Broadway, New York, and 104 South Tenth street, Philadelphia, Pennsylvania. Price—\$1.25 per bottle, or 6 bottles for \$6.50, delivered to any address. Sold by all Druggists everywhere.

NONE ARE GENUINE UNLESS BOTTLED IN steel engraved wrapper, with the initials of H. T. HELMBOLD.

Wholesale Agents in Sacramento, H. C. KIRK & CO., 114 J street.
